

The Sustainability Code – Declaration of Conformity 2014

Allianz has supported the Sustainability Code (formally known as the German Sustainability Code) since its launch in 2011. The Group's comprehensive report follows the reporting standards of the Global Reporting Initiative 3.1 ([Application Level A+](#)), as such, equates to compliance with the Code (according to Section 3.3 "Compatibility Version of the Declaration of Conformity with the Code"). The Allianz Group's Annual and Sustainability Reports serve as our Declaration of Conformity 2014.
